

COURSE OUTLINE

(1) GENERAL

SCHOOL	Social Sciences		
ACADEMIC UNIT	Sociology		
LEVEL OF STUDIES	Undergraduate		
COURSE CODE	325	SEMESTER	1 st
COURSE TITLE	Qualitative methods and techniques in social sciences		
INDEPENDENT TEACHING ACTIVITIES <i>if credits are awarded for separate components of the course, e.g. lectures, laboratory exercises, etc. If the credits are awarded for the whole of the course, give the weekly teaching hours and the total credits</i>		WEEKLY TEACHING HOURS	CREDITS
		3	6
<i>Add rows if necessary. The organisation of teaching and the teaching methods used are described in detail at (d).</i>			
COURSE TYPE <i>general background, special background, specialised general knowledge, skills development</i>	Mandatory / general background, specialised general knowledge, skills development.		
PREREQUISITE COURSES:	Basic knowledge of sociological theory and elementary knowledge of qualitative research methods and techniques.		
LANGUAGE OF INSTRUCTION and EXAMINATIONS:	Greek / English.		
IS THE COURSE OFFERED TO ERASMUS STUDENTS	Yes		
COURSE WEBSITE (URL)	https://www.soc.aegean.gr/ext-files/pm/pps/2017-325-en.pdf		

(2) LEARNING OUTCOMES

<p>Learning outcomes <i>The course learning outcomes, specific knowledge, skills and competences of an appropriate level, which the students will acquire with the successful completion of the course are described.</i></p> <p><i>Consult Appendix A</i></p> <ul style="list-style-type: none"> • <i>Description of the level of learning outcomes for each qualifications cycle, according to the Qualifications Framework of the European Higher Education Area</i> • <i>Descriptors for Levels 6, 7 & 8 of the European Qualifications Framework for Lifelong Learning and Appendix B</i> • <i>Guidelines for writing Learning Outcomes</i> <p>Students after the end of the semester are expected to be capable to:</p> <ol style="list-style-type: none"> 1. Understand the main theoretical tools and the analytical logic of the aforementioned
--

theoretical schools of microsociology.

2. Grasp and perpetuate the ideas of investigating “small and specific” areas of social reality and connect them with broader issues of sociological theory.
3. Connect the theoretical tradition of microsociology with the empirical examination of “actual” everyday social reality in its various implications.

General Competences

Taking into consideration the general competences that the degree-holder must acquire (as these appear in the Diploma Supplement and appear below), at which of the following does the course aim?

<i>Search for, analysis and synthesis of data and information, with the use of the necessary technology</i>	<i>Project planning and management</i>
<i>Adapting to new situations</i>	<i>Respect for difference and multiculturalism</i>
<i>Decision-making</i>	<i>Respect for the natural environment</i>
<i>Working independently</i>	<i>Showing social, professional and ethical responsibility and sensitivity to gender issues</i>
<i>Team work</i>	<i>Criticism and self-criticism</i>
<i>Working in an international environment</i>	<i>Production of free, creative and inductive thinking</i>
<i>Working in an interdisciplinary environment</i>	<i>.....</i>
<i>Production of new research ideas</i>	<i>Others...</i>
	<i>.....</i>

Working independently,
 Team work,
 Production of free, creative and inductive thinking,
 Showing social, professional and ethical responsibility and sensitivity to gender issues,
 Criticism and self-criticism,
 Production of free, creative and inductive thinking,
 Working in an international environment,
 Working in an interdisciplinary environment,
 Production of new research ideas.

(3) SYLLABUS

During this particular course, the tradition of qualitative research in the social sciences and its relationship to various methodological issues and topics will be in detail presented, applying different research techniques. In particular, the emphasis will be attributed to the multiple methodological design issues, strategies and techniques, followed in qualitative field research (e.g. biographical narrative interviews, open questionnaires, semi-structured and group interviews, focus groups, participant observation, diaries, archives, records of multiple species, etc). In this context, the course shall in the introductory lectures outline a comprehensive and multidimensional theoretical tradition; this of interpretive sociology, established in the social sciences (e.g., history, sociology, social psychology, social anthropology, etc.) the last about 150 years.

The course is established in the form of weekly lectures around different aspects and topics. Within these meetings, what is presented is the legacy of interpretive sociology and through the use of multiple forms of evidence and material-what is particularly analyzed is the contribution of each individual school in relation to qualitative research and techniques. More particularly, what is presented in detail - through specific research examples and empirical studies mentioned in Greek and international literature – is the methodologically techniques that are basically used in qualitative research (e.g., participant observation, interview in its various forms, focus groups, biographical and research action, etc.). The course strengthens students to submit their own "lived experience" as a starting point

regarding a wider debate on theory, qualitative research and the ethical and political issues potentially emerging during research design and political planning.

1st Week: Introduction

2nd Week: Science as a classification system

3rd Week: Positivism

4th Week: Interpretation

5th Week: Microsociology and Qualitative research

6th Week: Symbolic Interaction, Critical Ethnography and Grounded Theory

8th Week: Phenomenology and the social construction of reality

9th Week: Ethnomethodology and the performance of everyday life

10th Week: Entering the research field. Participant observation and field ethnography

11th Week: Interviews and focus groups

12th Week: Ethical and political issues

13th Week: Closing Course

(4) TEACHING and LEARNING METHODS - EVALUATION

<p style="text-align: center;">DELIVERY</p> <p><i>Face-to-face, Distance learning, etc.</i></p>	<p>Face-to-face, Interactive methods, Field work, Visit to various organizations, Guest lecturers, Movies, Documentary films.</p>	
<p style="text-align: center;">USE OF INFORMATION AND COMMUNICATIONS TECHNOLOGY</p> <p><i>Use of ICT in teaching, laboratory education, communication with students</i></p>	<p>Use of ICT in teaching, laboratory education, communication with students.</p>	
<p style="text-align: center;">TEACHING METHODS</p> <p><i>The manner and methods of teaching are described in detail. Lectures, seminars, laboratory practice, fieldwork, study and analysis of bibliography, tutorials, placements, clinical practice, art workshop, interactive teaching, educational visits, project, essay writing, artistic creativity, etc.</i></p> <p><i>The student's study hours for each learning activity are given as well as the hours of non-directed study according to the principles of the ECTS</i></p>	Activity	Semester workload
	Lectures	39 hours
	Studying	51 hours
	Essay	10 hours
	Written Examination	30 hours
	Fieldwork	20 hours
	Course total	150 hours
<p style="text-align: center;">STUDENT PERFORMANCE EVALUATION</p> <p><i>Description of the evaluation procedure</i></p> <p><i>Language of evaluation, methods of evaluation, summative or conclusive, multiple choice questionnaires, short-answer questions, open-ended questions,</i></p>	<p>Greek, English. Essays and written assessments. Examinations with open-ended questions.</p> <p>See the departmental web page and the students' guide for further instructions.</p>	

problem solving, written work, essay/report, oral examination, public presentation, laboratory work, clinical examination of patient, art interpretation, other

Specifically-defined evaluation criteria are given, and if and where they are accessible to students.
