<i>Team work</i>	<i>Criticism and self-criticism</i>
<i>Working in an international environment</i>	<i>Production of free, creative and inductive thinking</i>
<i>Working in an interdisciplinary environment</i>	<i>.....</i>
<i>Production of new research ideas</i>	<i>Others...</i>
	<i>.....</i>

Search, analysis and synthesis of data and information on the value dimension and principles of international and European law
 Working in an interdisciplinary environment
 Generating new research ideas in the context of international and European studies adapted to the wider social science environment
 Development of critical faculties
 Promotion of free, creative and deductive legal thinking
 Promotion of decision-making capacity based on international and European case law

(3) SYLLABUS

COURSE CONTENT

1. Introductory reflections on the legal legacy of Kant's Metaphysics of Morals in modern private and public law

A. Legal language : the tolerance of legal and institutional neologisms :
supranational law; the exercise of quasi-executive power

B. Relationship between right and wrong

C. The importance of legal logic

D. The relationship between law and law

E. The prospect of Europeanisation: the shortcomings of Member States' public policies in the EU institutional, legal and political environment

2. Geo-economic and geo-political dimension of European integration.

A. Expanded

B. The post-Cold War orientation of European integration

C. The variable geometry of European integration: EMU, social interpretation,
integration and withdrawal

D. The principle of free movement as a fundamental principle of European
integration

E. The concept of borders in the European integration process

3. Constitutionality of European integration

A. Fundamental human rights and freedoms

B. The democratic deficit in the EU

C. The institutional restructuring of the EU

D. The political expectations of the community phenomenon

4. The citizen in the European integration process

A. European citizenship - European identity

B. The citizen in the Union's legislative process: the right of popular initiative

5. European governance

A. Interest groups

B. The concept of public interest

6. European Labour (Social) Law (Dr. Katerina Apostolidou, Lawyer-Sociologist)

A. Highlighting the links between international and European labour law based
on the transnational mobility of workers in the public and private sector
(conditions).

B. The role of national administrations and international organisations.

- C. The development of European labour (social) law, based on internationally accepted professional concepts and practices.
- D. The regionalisation and internationalisation of legal knowledge and practice

7. Sociology of international law

- A. Formation of constitutionality beyond the state
- B. The bi-national conception and interpretation of the rule of law and the prospect of organizing a universal society
- C. The development of the logic of homocentric circles and the a-centric constitution of a legal order: thoughts on hierarchical balance and the principle of supremacy

8. The subjects of international law: innovative developments

- A. The individual as a subject of international law (the evolution of international human rights law; the right of the individual to be present in international courts and tribunals)
- B. The legal person (multinational enterprise) as a subject of international law

9. The need to redefine the definition of international law

Public international law has traditionally been defined as the law of international relations, which are considered to be identical to inter-state relations, or those of international society, which is considered to be indistinguishable from the society (community) of states : from Hans Kelsen to Paul Reuter and Michel Virally

10. National Sovereignty in international law

- A. National sovereignty and authority
- B. Supranational sovereignty (EU)
- C. The legitimacy of the functioning of the state within the international community (recognition)
